	Source learned that about 40 percent of the MVP effectives stationed at Sternbushholz moved to the Erfurt area in midaugust 1953.	
5X1X	AVP effectives stationed at Sternbushholz moved to the Erfurt area in midaugust 1953.  On 5 September 1953, the KVP barrasks installation at Sternbushholz quartered about 3,000 men who were red and sed-bordered black epaulets. Lieutenant Colonel Nacks was commanding office of the Bereitschaft. KVP details observed included 30 men being trained with 10 x 120-mm mortars; 40 men with 6 model ZIS-3 light field guns; and about 10 squads of about 8 men each being trained on light machine guns. Near the intrance of the installation source saw two

2. 5X1X 5X1X 1B	AVP effectives stationed at Sternbuchholz moved to the Erfurt area in midaugust 1953.  On 5 September 1953, the KVP barracks installation at Sternbuchholz quartered about 3,000 men who wore red and red-bordered black epaulets. Lieutenant Colonel Nacks——was commanding office of the Bereitschaft. KVP details observed included 30 men being trained with 10 x 120-mm mortars; 40 men with 6 model ZIS-3 light field guns; and about 10 squads of about 8 men each being trained on light machine guns. Near the intrance of the installation source saw two T-34 tanks.  Comment. A troop train coserved on 28 August, may be connected with this transfer.  Comment. KVP Bereitschaft Sternbuchholz ——belongs to TV Schwerin. The Bereitschaft mainly consists of infantry units with assigned artillery. This assimption is supported by the service colors observed at Sternbuchholz. Lieutenant Colonel Karl Nacke, a former German Army Heutenant colonel ——and regimen all commander was previously reported as being the toomanding officer of Bereitschaft Sternbuchholz. In November 1952, he was, allegedly, transferred to the EVKVF and detached to a training course in the USSR. The present report in icatas that after returning from the USR, Nacke took over the command of the KVF unit in Sternbuchholz as successor to Major	25
